

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

WHEREAS, By the liberality of a private citizen, said institution has already received as a gift a valuable tract of land and improvements, near the city of Nashville; and,

WHEREAS, It appears that the general welfare will be promoted by the encouragement of the objects of said institution; therefore,

But no child shall be bound out, apprenticed, or given away for adoption, except by resolution of the board of directors of said school, which shall state the name, age and the sex of the child, and to whom and for what purpose it was bound out, apprenticed or given in adoption, and shall show when the resolution was passed. WHEREAS, The manufacturers of brandy from apples and peaches and of whisky in this State believed that under article second, section thirty, of the constitution of Tennessee, that they had the right to manufacture and sell without paying any tax except inspection fees, sold their products by the quart and in greater quantities after complying with the national and State laws, but the supreme court in the case of John Webb vs. S. C. Baird, 11th Lea, page 667, and in the case of W. E. Taylor vs. Isaac Vincent, 12th Lea, page 282, held that if they sold by the quart or larger quantities became wholesale dealers, which holdings by said court were the first intimations that such manufactures had of their

liability as such dealers, neither the comptroller, clerk or legal profession interpreted the statute so to be as declared by said court; and whereas, if the laws had been so construed by the comptroller and clerks, many of the small distilleries would not have attempted to run their distilleries, as the tax is greater than the whole amount made by many of them; therefore,

*Be it resolved by the General Assembly of the State of Tennessee,* That the tax on all such manufactures for the years 1881, 1882 and 1883 be hereby remitted and not collected, but such manufacturers shall be liable for the tax for 1884.
